Projects

SUNY Old Westbury

System Design & Implementation Project, *Minerva University*

Technologies: HTML5, CSS3, JavaScript, PHP, SQL

- Implemented a database and populated the database with data using SQL queries
- Assigned permissions and access levels based on user type (i.e. Student, Professor, and Admin).
- Designed website templates using Adobe XD and created logos using Illustrator.
- Created Bootstrap-like HTML5 & CSS3 templates with components including drop down menus, auth pages, clickable logos, and file upload form fields.
- Used PHP on the backend for all business logic in models, views, and controllers.
- Provided proper and thorough documentation, as well as a system/user manual.

Baruch College

Database Management Systems, *BMT Orthopedics & Sport Medicine PC*

Technologies: Access, SQL

- Designed an Entity Relationship Diagram using (draw.io), and assigned associations between models based on requirements.
- Designed a user Interface using Microsoft Access, including an authentication map routing the user to the appropriate homepage based on access level.
- Provided proper and thorough documentation.

Experience

Allied Universal Protective Services, *Security Professional*

New York, NY | 8/2016 - Present

- Assigned to and responsible for the loss prevention units at multiple mall centers
- Logged and reported all incidents occurring on the premises
- Consistently provided exemplary customer service via phone, email, and in person interactions
- Tracked and monitored all public premise activities via CCTV and dispatcher
- Routinely assisted EMS, law enforcement, and fire department personnel with onsite issues

AMC Theatres, *Customer Excellence Associate*

Westbury, NY | 12/2015 - 8/2016

- Provided exemplary customer support via phone and through in-person interactions
- Helped the branch meet daily sales goals through increased ticket and membership sales
- Assisted with building maintenance before, during, and after our hours of operation
- Assisted with several other business needs as needed
